Hello

I am a student at the University of Melbourne where I'm studying a Master of Information Technology majoring in Human Computer Interaction. This semester I am undertaking a project in collaboration with Telstra to support first responders. As part of this I would really like to understand the perspectives of first responders. I am hoping to interview some of your first responders, particularly those who have experience driving emergency vehicles.

The interviews would comprise 10 questions and should take less than half an hour. I can do the interviews in person or online depending on your availability.

I look forward to hearing from you.

Thank you so much,  
Ramin Ahmadi

Hi Ramin,

Thanks for your email.

Unfortunately we are a very small team and as such we don't have capacity to respond to enquiries for student projects.

Best of luck with your project and my apologies that we couldn't be of more assistance.

Kind regards,  
Nicole.
